1. Put the two json files at the same hierarchy as the src directory:

> CL Tool [OtherTests master]
- > src
  - > (default package)
    - ComparisonPanel.java
    - DiffTool.java
    - Mapper.java
    - ResultPanel.java
    - UsagePanel.java
  - JRE System Library [JavaSE-1.8]
  - Referenced Libraries
- file1.json
- file2.json
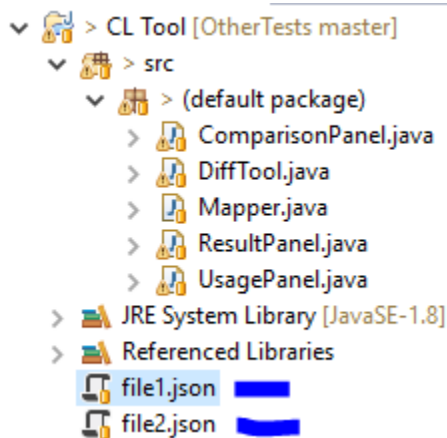

1. **OUTPUT 1**: comparison results

FILE 1

FILE 2
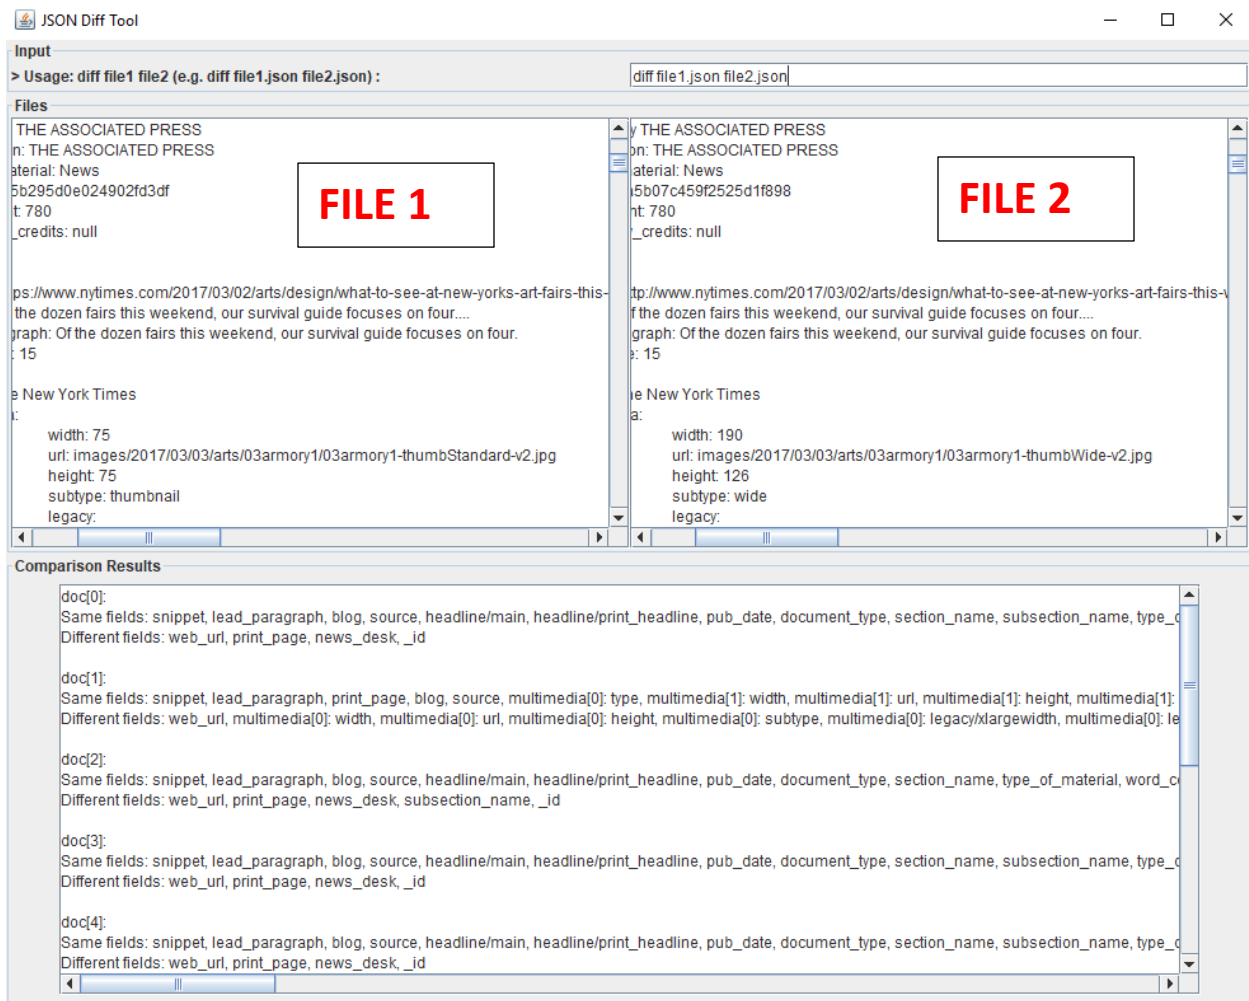

**Comparison Results**

2. **OUTPUT 2**: can't find file

JSON Diff Tool

**Input**

> Usage: diff file1 file2 (e.g. diff file1.json file2.json) :     diff a.json b.json

**Files**

**Comparison Results**

Exception: java.io.FileNotFoundException: a.json (The system cannot find the file specified)

3. **OUTPUT 3**: wrong command

JSON Diff Tool

**Input**

> Usage: diff file1 file2 (e.g. diff file1.json file2.json) :     diff

**Files**

**Comparison Results**

Please enter: "diff file1.json file2.json"
